

AI agents: optional add-on

For Gritz N Wafflez

Everything else is already in your package: the app, the menu, the Order Up! game, rewards and referrals, QR stickers, table cards and the window poster, your setup and updates. The two AI agents are optional and have their own monthly fee, because they use a phone line and AI minutes every month. Turn them on or off anytime.

AI call agent - \$99/month

Answers your phone when nobody can, 24/7: hours, menu, specials, parking, the app. It takes messages and texts you the caller's name and number. It never takes payments or confirms reservations.

Includes up to 750 minutes a month (about 17 calls a day). Extra minutes: \$0.15 each.

What the \$99 pays for

AI voice, up to 750 minutes (ElevenLabs, 8¢ a minute)	~\$60
The AI brain that understands callers	~\$7
Phone number + incoming call minutes (Twilio)	~\$8
Setup on your menu + specials, weekly call reviews, updates	~\$24
Per month	\$99

AI text agent - \$49/month

Texts guests back 24/7 (hours, menu, specials, the app), sends a text when a call is missed, and sends the reward, raffle, winner, birthday and come-back texts you approve.

Includes up to 1,000 texts a month (replies and automatic texts combined). Extra texts: \$0.03 each.

What the \$49 pays for

Up to 1,000 texts (carrier + Twilio, about 1.5¢ each)	~\$15
The AI that writes the replies	~\$4
Text number + carrier registration (required to text customers)	~\$6
Setup, message templates, monitoring, updates	~\$24
Per month	\$49

Examples

Calls only	\$99/month
Calls + texts	\$148/month

For comparison: A part-time host just to answer phones costs about \$2,500+ a month. Answering services charge about \$1–2 per minute.
